

»» FLEXNOW-Website

For you, Flexnow is important for the following reasons: You can

1. **See** and thus control the exams/courses you are enrolled in.
2. See your **grades** once they are published.
3. **Generate** a valid Transcript of Records (ToR) on your own.

The screenshot shows the 'flexnow' interface for creating a data sheet. The page title is 'Data Sheet (student ID [redacted] - 21.04.2021 - 16:15 o'clock)'. The main heading is 'Create data sheet (verifiable)'. The form includes fields for 'expiration date', 'comment', 'courses of Studies' (with a checkbox for 'Volkswirtschaftslehre Master (Exmatrikuliert)'), 'format of report' (set to 'mit Durchschnittsnote'), and 'language' (set to 'Englisch'). A 'create' button is at the bottom. A 'Show data sheets' section below indicates 'no sheet available'. The left sidebar contains navigation options: Home, News, Student's Data, Exm (De-) Registration, Dates, Data Sheet (highlighted), new TAN list, Settings, and Logout. Red boxes and arrows highlight specific elements: the 'Data Sheet' menu item, the 'courses of Studies' section, the 'format of report' dropdown, the 'create' button, and the 'Data Sheet' menu item again. A red box at the top left explains that the 'Data Sheet' menu item is equivalent to a 'Transcript of Records'. Other red boxes provide instructions: 'Tick Box' points to the checkbox in the 'courses of Studies' section; 'Select' points to the 'format of report' dropdown, with sub-instructions 'Mit/Ohne' and 'With/Without' and a list of options: '„Fehlversuchen“ failed exams' and '„Durchschnittsnote“ average grade'; 'Create ToR (Allow pop-Ups)' points to the 'create' button.
